ABOUT TEFL

TEFL (Teaching English as a Foreign Language) is a professional certification that prepares individuals to teach English to non-native speakers in countries where English is not the primary language. It focuses on practical teaching skills, classroom management, lesson planning, and language theory, enabling teachers to create effective and engaging lessons for learners of all ages and levels. A TEFL certificate is internationally recognized and often a requirement for teaching English abroad or online.

METHODOLOGY

At iTTi Oaxaca, our TEFL/TESOL program blends modern, student-centered methods with hands-on teaching experience. Trainees learn to apply task-based learning, blended instruction, and communicative approaches in real classrooms, gaining the skills needed to engage diverse learners using both traditional and tech-integrated strategies.

We also prepare teachers for today's digital world by incorporating online teaching tools and personal branding. From using platforms like Zoom to creating a strong online presence through social media and basic SEO, our graduates are equipped to teach in-person or online — and stand out in the global job market.
